

## Software Development Kit (SDK)

With **Destinator** SDK, any application can enjoy the full power of the **Destinator** routing and guidance engine. Built on enterprise-class technology, **Destinator** SDK enables third-party PC applications and wireless solution providers to integrate navigation and mapping functionalities into their legacy systems.

The SDK is supplied in the form of an ActiveX control with detailed documentation. It is easy to install, easy to use and easy to deploy while providing an unheralded opportunity to improve your overall business processes.

## Editor's Choice Awards

Personal Navigation System  
for your Pocket or Notebook PC

# Destinator frees your mind to focus on more important details,

such as your meeting  
or destination plans.

## Feature Highlights

### Routing

- Easy-to-follow, turn-by-turn visual and voice prompts guide you to your destination
- Plan trips, deliveries or sightseeing tours in advance and let **Destinator** optimize your route
- Navigate easily to any contact in your Microsoft® Outlook database
- Force recalculation allows you to manually request an alternate route if you have driven off course
- "Avoid Traffic" feature helps you circumvent congestion and choose to avoid certain roads
- Ready to receive real-time traffic data\*

### Technologies

- Sophisticated navigation algorithms generate quickest or shortest route to meet your specific requirements
- Proprietary compression technology enables large volume of map data per unit of memory
- Support a variety of GPS receivers including Bluetooth

### Voice Features

- Select preferred language from English, French, Italian, German, Spanish, Hebrew, Danish and Swedish
- Multiple and clear reminders precede each maneuver
- Repeat last voice command with a simple touch

### Visual Features

- Detailed text instructions include street names and distance to next turn
- Graphically-enhanced and driver-safe daytime and nighttime colors
- Three-dimensional "bird's-eye" view of the map for intuitive and easy orientation

### Map Data

- Dynamically updated, rich and easy-to-read maps with clearly marked route
- Latest digital maps from world-renowned mapping experts feature complete street and address coverage in urban and rural areas
- Include detailed street maps of U.S., Canada, United Kingdom, Ireland, France, Germany, Austria, Belgium, Switzerland, Italy, Israel, Spain, Portugal, Sweden, Denmark, Norway, Finland, The Netherlands, Luxembourg and Liechtenstein, Brazil and Australia

### Points of Interest/Address Book/Favorites

- Millions of categorized points of interest (POI) with phone numbers
- Special alerts on upcoming points of interest
- Store up to 4,000 destinations in address book
- Sort unlimited Favorite entries by categories
- Recall last 15 destinations instantly

## Community Web Site

Customize your **Destinator** for maximum usability. Use the community portal to personalize your **Destinator**: get updates and driving tips to avoid construction zones or congestion areas; share interests and exchange tips; upload your personal resources and favorites; download other users' trips, points of interest, unique voice prompts and more!
